Sounds good, thanks Chuck! On another note, I spoke with Anthony Leverock at ADEQ on Monday and he indicated that he will send me a CD with Talley documents for me to review. He said it should arrive by Thursday. Once I receive the CD, I will review the data and then discuss the need for monitoring well(s) on the adjacent tribal land in more detail with ADEQ. When I was on the phone with Anthony, he did mention that one of the attorneys at ADEQ believes the off-site area is land in trust; he has a call in to someone from SRPMIC to confirm. He has not heard back from SRPMIC, however, he said he would give me a call if he hears anything. I'll keep you posted. Hopefully ADEQ will hear back from SRPMIC and you'll hear back from BIA soon.

Thanks!
Cynthia

I sent the BIA the map with the parcel circled. I would consider the BIA the final word on the land status. I will let you know if there is new information from them.

Mr. Swanson,

I just wanted to acknowledge receipt of your inquiry. I had gathered some information on the subject this morning but need to do a little further research. I will send you all of the documentation this afternoon. In short, yes, I believe the “exchange preserve” land is held in trust.

Mr. Webb,

I am attaching a landuse map for the Salt River Tribe. On the map there is a parcel circled identified as exchange preserve. Is this land in trust?

I appreciate your help with this.

Thanks,

Chuck
